

Established in 1969, Harmony Recovery is one of Colorado’s longest-standing addiction treatment centers, beautifully nestled in the Rocky Mountains.

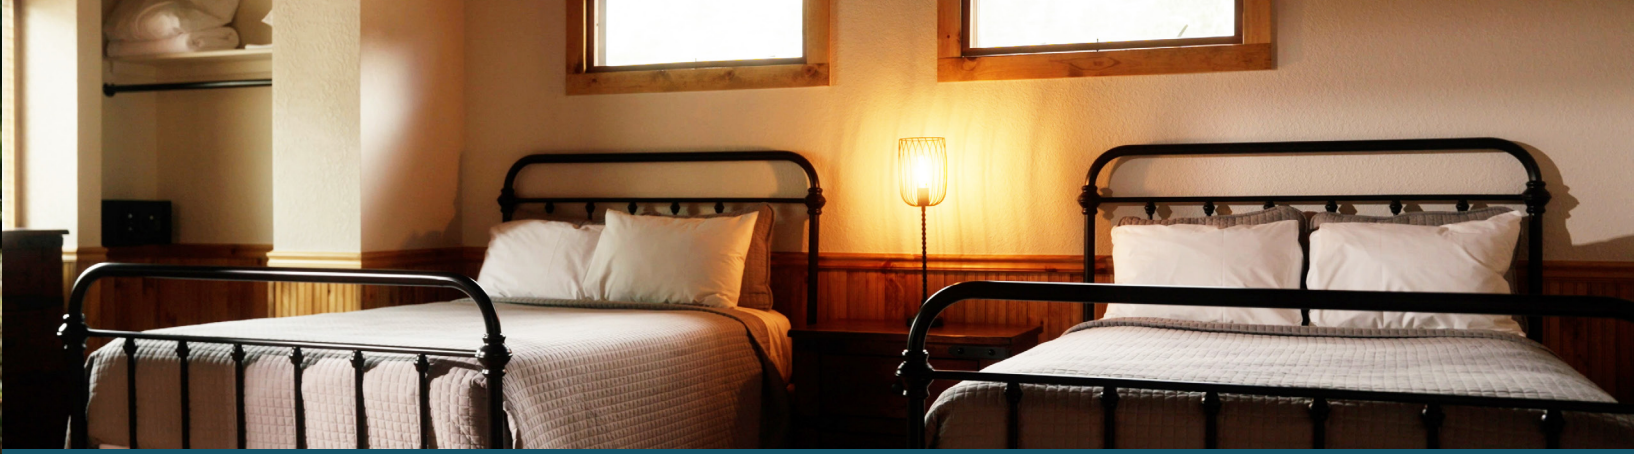

ALL TOGETHER.

WHO WE ARE

With over 55 years of legacy, we have been dedicated to breaking the cycle of generational addiction in families. We are proud of our intimate treatment program, located in a safe and natural environment that helps individuals pause, reflect, and rebuild their new life in recovery. At Harmony Recovery, we tailor each treatment plan to your unique needs for the most effective and personalized care.

-  Alumni Program
-  Family Program
-  Spirituality and Self Discovery
-  Specialty Groups
-  Aftercare Program
-  Case Management

The Path of Recovery: The Next Step to Addiction Treatment & Recovery

PRIMARY RESIDENTIAL CARE

Harmony Recovery’s residential program offers the tools and environment necessary to foster a supportive community and build a strong foundation for lasting recovery. During the client’s stay in our residential care, they will benefit from 24-hour attention provided by highly skilled staff, ensuring comprehensive clinical, medical, and spiritual support. Individualized treatment is based on each client’s personal goals and preferences, level of motivation, co-occurring mental health, medical, and spiritual needs.

COMPREHENSIVE MEDICAL DETOX

Harmony’s detoxification program offers comprehensive withdrawal management and a thorough assessment to lay the foundation for ongoing recovery. Our 24/7 nursing support ensures continuous care, and the program can be accessed as a standalone service or as part of a broader continuum of care.

RECOMMITMENT TO RECOVERY PROGRAM (RCR)

RCR Program offers short-term, residential treatment for individuals who relapse within a year of completing a previous residential program. Participants reside on campus, receiving comprehensive medical care and engaging in relapse prevention-focused programming. The treatment includes medical consultations, group and individual therapy, and case management to address the behaviors that led to the relapse and to help reestablish a new foundation for recovery.

INTENSIVE OUTPATIENT PROGRAM (IOP)

This program allows participants to live at home, continue their employment, and engage with their community while developing positive recovery skills. This fully virtual Intensive Outpatient Program (IOP) typically includes individual sessions, group therapy sessions, case management support, and drug testing. IOP is an excellent option for those who are not in need of a more intensive program such as residential or for those transitioning from an inpatient program who want to gradually reduce their support as they build a solid foundation for their recovery.

FAMILY PROGRAM

Harmony’s family program provides psychoeducational groups on the disease model of addiction and offers weekly virtual meetings in a peer-driven format. These free online sessions create a safe space for families to discuss issues, express themselves, and begin the healing process. Open to Harmony alumni, family members, and loved ones, our program underscores the importance of ongoing family support in overcoming resentments and restoring relationships through compassionate communication.

SPIRITUALITY AND SELF DEVELOPMENT

Spirituality has always been central to Harmony’s treatment philosophy. Our on-campus spiritual advisors assist clients in nurturing their personal spiritual understanding through various pathways. By working one-on-one with a spiritual advisor in our serene, natural environment, clients can connect deeply with the world around them and discover their true sense of purpose.

Harmony Recovery has helped over 25,000 clients since its founding.

CONTINUUM OF CARE: COMPREHENSIVE SUPPORT AT EVERY STAGE

At AllHealth Network, we offer comprehensive support for individuals with complex mental health needs. After leaving Harmony, they will find continued care and resources in the Denver metro area and its surrounding communities, ensuring ongoing support on your recovery journey.
