

OUR COMMITMENT:

AllHealth Network is one of the few local resources with professionals trained to evaluate substance use challenges and the mental health needs of the individual (co-occurring conditions) being treated.

MAT SERVICES INCLUDE:

- Suboxone (buprenorphine)
- Sublocade (extended-release buprenorphine)
- Vivitrol (extended-release naltrexone) for opioid use disorders and Alcohol Use Disorder
- Treatments for polysubstance use
- Treatment of coexisting opioid use disorder and psychiatric disorders
- Free Narcan
- Urine drug screening

Through an integrated approach, we examine the intersection of mental health and substance use disorders to identify the best treatment methods for our clients.

MAT is aimed at reducing the use of opioids such as heroin, fentanyl, and prescription painkillers among opioid-dependent persons through behavioral, psychosocial, and pharmacological treatments.

BENEFITS OF MAT

- Decrease in cravings
- Stabilizes and repairs brain pathways
- Helps prevent relapses and overdoses

MAT programming is available at our Sycamore, Parker Dransfeldt, and Castle Rock locations.

AllHealth Network offers substance use disorder treatment for both adults and adolescents.
