

Sage Ridge

Supportive Residential Community

Sage Ridge Supportive Residential Community

Sage Ridge Supportive Residential Community is a first-of-its-kind recovery campus offering withdrawal management, residential, and outpatient care.

Developed in partnership with AllHealth Network, the Colorado Coalition for the Homeless, Signal Behavioral Health, and the State of Colorado, Sage Ridge supports individuals build stability for lasting recovery.

Withdrawal management

Sage Ridge's medically monitored withdrawal management program provides 24/7 support for individuals experiencing withdrawal, with licensed staff offering compassionate care and medication-assisted support to ensure a safe start to recovery.

Residential recovery

The residential program offers structured, therapeutic support with clinical care, individual and group therapy, trauma-informed programming, and life-skills development to help clients build coping skills and prepare for reintegration into the community.

Outpatient recovery

Sage Ridge's outpatient services provide flexible care after stabilization or residential treatment, including individual and group therapy, medication management, and recovery coaching to help clients maintain progress and rebuild daily routines.
